SOME SUCCESSFUL COUNTRY HOMES

A Series of Pictorial Articles, of Which This is the First

A HOUSE IN THE NORTHWEST BUILT OF LOGS

THESE are photographs of the unique summer home of Mrs. Thomas Burke, on the shore of Lake Washington, in the suburbs of Seattle, Washington. In size the house is thirty-eight feet by fifty. It is built of Washington fir, the exterior surface being in the rough — for the most part with the bark on. There is but one room on the ground floor, different corners of which are shown in the photographs. The interior decorations are mainly of Indian handiwork and implements and trophies of the chase — except in the Army and Navy corner. The name of this pretty summer place is Indian, for Chinook Indian word for home.

PHOTOGRAPHS BY A. B. WISE

A GLASS IS A NECESSITY

No one out of door, whether Traveler, Sportsman, Sailor, Ranchman or Stay-at-Home can afford to be without a **STEREO.** If you think this statement overdrawn it is because you have never had a

STEREO for a *companion.*

You have never tested its Immense Field, Marvelous Definition and Magnifying Power, or realized how small, light, elegant and convenient it is.

Illustrated booklet explains all.

We will also send you a Catalog of Photographic Lenses, Microscopes, or Chemical Apparatus and Chemicals if interested.

FOR SALE BY ALL DEALERS Mention RECREATION.

100 MOUNTS

"SNAP SHOT" ALBUMS.

100 CENTS

Have you got one? If not, you are stilll looking for an Album whose leaves **do not warp or curl.** "Snap Shot" leaves are **always** flat; 20 years of experience has taught us how to make them **right.**

YOUR VACATION IN COLORADO

Burlington Route

DO you quite realize that in all the world there is no scenery more gorgeous, more majestic and awe-inspiring than that of Colorado?

Couple this with these facts—

That the climate of Colorado is simply delightful.
That the dry, pure air is wonderfully healthful and invigorating; and that the hotels are of unusual excellence.
Then consider the question of spending your vacation there this summer.

Colorado is not far away. The Burlington Route runs "one night on the road" trains from both Chicago and St. Louis, and they are luxuriously furnished. Sumptuous library smoking cars and dining cars *à la carte* make the trip seem very short. Then during the summer months tourist tickets are sold at greatly reduced rates, so the expense is not great.

Let me send you maps, time tables, ticket rates; and if you want to know more about the country enclose six cents in postage for our *book on Colorado.* It is a beautiful work, of literary excellence and profusely illustrated.

P. S. EUSTIS, General Passenger Agent, C. B. & Q. R. R., Chicago, Ill.

CHRISTIAN HERALD

AND SIGNS OF OUR TIMES

Vol. 4[illegible] August 4, 1898 — Full of Bright Promises

A Successful Country House in New England

Designed by Edgar A. P. Newcomb

This house, the summer home of W. A. Tucker, at Manchester, on the North Shore, Massachusetts, is an example of certified manufacturing to meet modern ideas. Originally the house was of modest proportions, but when within no more than twenty years of life it has been enlarged, and changed in other respects, until to-day it stands as a good type of a summer home. The interior views show the attractiveness of both the exterior and interior

THE NATIONAL WEEKLY

WHERE SHALL THE MAY QUEEN'S PALACE BE?

BY WALLACE IRWIN

WHERE shall the May Queen's palace be?
On a hill where the world can come and see;
Open are the doors and grassy are the floors
And the roof is the flowers of the apple tree.

WHAT shall the dream of the May Queen be?
Crystal gates and a golden key;
Of a blue-bell hall and a lover knight and tall
And a crown from the flower of the apple tree.

AND the law of the little May Queen shall be
Happy as the birds, as the west wind free,
And her wand shall sway in the Empire of the May
As lightly as the flower of the apple tree.

NATIONAL ROUGH-RIDER MILITARY ENCAMPMENT

SHENANDOAH VALLEY, COLORADO

1900-1901

BOARD OF GOVERNORS

Hon. CHAS. S. THOMAS, Governor of Colorado.
Gen. E. V. SUMNER, U. S. Army (retired) Commanding.
Gen. IRVING HALE, U. S. V.
Colonel S. K. HOOPER, Denver, Colorado.
D. H. MOFFAT, President First National Bank, Denver, Colo.
C. D. GURLEY, Secretary and Treasurer, New York.

THE National Rough-Rider Military Encampment is the outgrowth of ideas crystallized by the late War with Spain, and is an institution made necessary by the great changes in military tactics which the last 10 years have recorded. The development of the Rough-Rider has progressed steadily for 30 years. How gloriously he showed his mettle in the War with Spain, and how gallantly he is doing it to-day in the Philippines and in South Africa, are matters of recent history.

In the Shenandoah Valley, in Colorado, has been found an ideal spot for the development in young men of all that is brave and true and free. In this school of nature, aided by all that is highest in education and science, the student will be trained in self-reliance, in quickness of decision, in accuracy of judgment and in a thousand other things that help to develop the young man into the finished soldier. Not only this, but the life he will be compelled to lead will be such as will expand his chest, harden his muscles, and put that sort of glow in his heart and in every nerve and fiber of his body only to be gained by continuous exercise in the open air, and in a dry, healthful climate.

The student in this Encampment will lead an outdoor life the whole year round. He will live in a tent, and his duties will largely be such as if he were actua ly a member of a scouting party or some similar body of Rough-Riders in the field. He will ride, hunt, study and drill, all under the supervision of competent and well-known officers of the United States Army.

NO AGE LIMIT

Any person able to ride a horse and shoulder a rifle may become a member of the organization.

No. 55114 Camera, including one Double Plate Holder and Carrying Case..... $16 00

This Camera, although moderate in price, is well made throughout of the best materials. Is constructed in a somewhat simpler form than the more expensive outfits, yet will be found a thoroughly practical instrument in every respect and one that will meet with favor.

THE LENS is a single achromatic.

THE SHUTTER is a new patent safety for both time and instantaneous work. Is set by simply turning a milled head, the leaves remaining stationary. Has adjustable diaphragm.

VIEW FINDER is attached to the bed and reversible for both upright and horizontal pictures.

CONSTRUCTION. Is handsomely finished, being shellacked inside and covered with black grain leather.

Carrying Case of fine leather to hold camera complete with 3 Plate Holders.

PONY PREMO No. 2

Takes picture 4x5

Weight 2 lbs. Dimensions when closed 2¾x5¾x8¾

Price includes one Plate Holder and Carrying Case.

No. 55116 With Achromatic Lens..... $20 00
No. 55117 With Rapid Rectilinear Lens..... 30 00

This is a thoroughly practical outfit carefully made of best material, and will find favor among those who desire a first-class, compact instrument at moderate cost.

The back is made square, permitting an instant change of the plate from a horizontal to a vertical position, or vice versa without disturbing the camera. Has rising and falling front for adjusting the foreground.

THE SHUTTER is a new patent safety for both time and instantaneous work. Is set by simply turning a milled head, the leaves remaining stationary. Has adjustable diaphragm.

Carrying Case of fine leather to hold camera complete with 3 Plate Holders or Roll Holder

PONY PREMO A.

Takes picture 4x5.

Weight 30 oz. Dimensions when closed 6½x6½x2¾

No. 55120 Camera, including one Double Plate Holder and Carrying Case..... $18 75
Wide Angle R. O. C. Lens fitted to above at an additional cost of 2 00

This Camera has proven a universal favorite among wheelmen and tourists and will meet the appreciation of all to whom extreme compactness is an important factor, and we are confident it will prove one of the most popular styles yet desired, especially among lady amateurs, who will appreciate its dainty appearance, portability and easy manipulation. Has rising and falling front, rack and pinion movement for focusing.

THE LENS is a Victor Rapid Rectilinear.

THE SHUTTER is the new Victor with Iris Diaphragm, pneumatic bulb and finger release.

CONSTRUCTION. Of finest mahogany, covered with fine morocco, polished brass and nickeled, lacquered trimmings.

Carrying Case of sole leather to hold camera complete with 3 Plate Holders or Roll Holder.

PREMO SR. SPECIAL.

Takes picture 4x5.

No. 55115 Camera, including one Double Plate Holder $121 25
Special Wide Angle Lens fitted to above at an additional cost of .. 20 00

This Camera is the very highest form of Hand Camera, being a perfect model of photographic completeness from every point of view. It stands for all that is best in cameras, lens and shutter, as well as minor fittings, and no pains have been spared to make this camera the highest possible grade of photographic apparatus.

THE LENS is the Leitz Anastigmat, Series III, sharply defined to the extreme edges of the plate and has an angle of about 70 degrees.

THE SHUTTER is a B. & L. diaphragm and will meet all requirements. It is constructed in the best possible manner operated without concussion and is noiseless in action. This shutter works automatically from 3 seconds to one one-hundredth part of a second and by moving a small lever may be set for time exposures.

CONSTRUCTION. Fine mahogany, covered with fine morocco, polished brass or nickeled, lacquered trimmings, leather handle.

Holds three Double Plate Holders or Roll Holder.

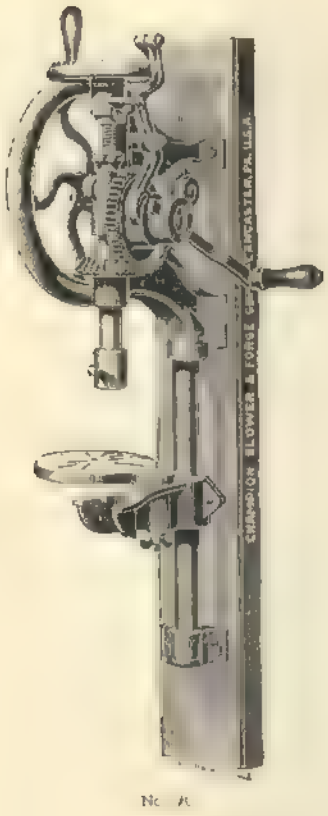
SELF-FEEDING UPRIGHT DRILLS.

NO. 90.



No. 90.

Column connected to the backbone, it has but one speed has back gear. The bearings are all ground to a working fit out of solid metal.

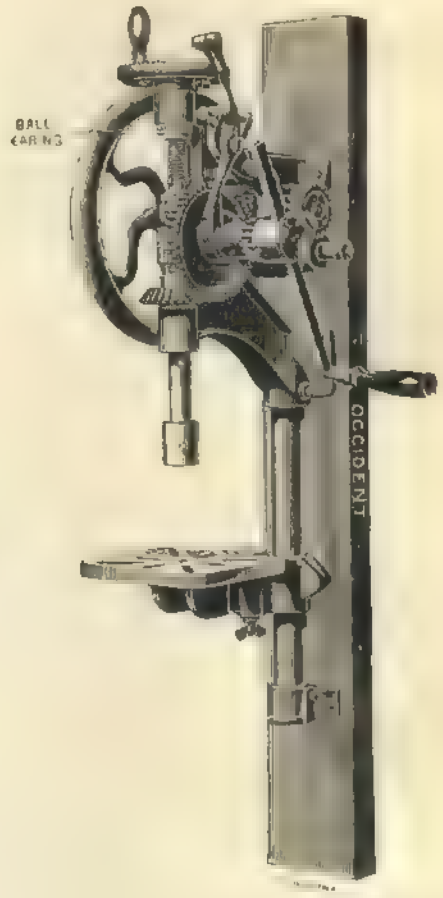
Spindle is bored to take in ½ in. straight shank drills.

Drills from 1/64 to 1 in. hole.

Drills to centre of a 14½ in. circle

No. 90—Weight Each Net, 100 lbs . . Each, $ 9 00

OCCIDENT.



Back geared, with improved third-gear principle which gives the second speed the same crank motion as on first speed. The improved third-gear being part of the handle hub, therefore is disengaged when using first speed, saving the continuous labor of pulling along an intermediate gear while using the first speed. Has double journal bearings to all working parts. All bearings are ground to a working fit out of the solid metal.

Has Spindle 1¼ in. in diameter

The Screw has an up-and-down run of 3½ in

The Spindle bored to take in ½ in. straight shank drills.

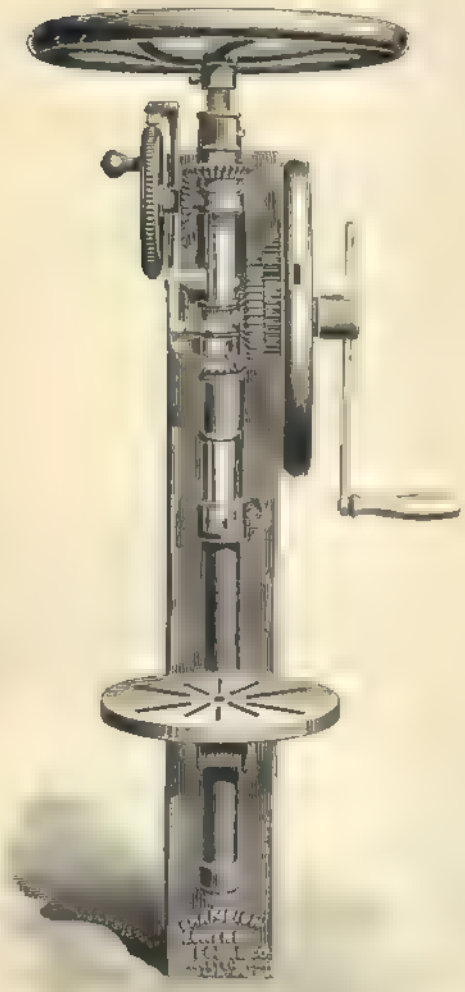
Drills from 1/64 to 1¼ in. hole. Drills to centre of a 16 in circle

Ball-Bearing.

Occident—Weight Each Net, 130 lbs . . Each, $ 18 50

SELF-FEEDING UPRIGHT DRILLS.

BLACK DIAMOND.

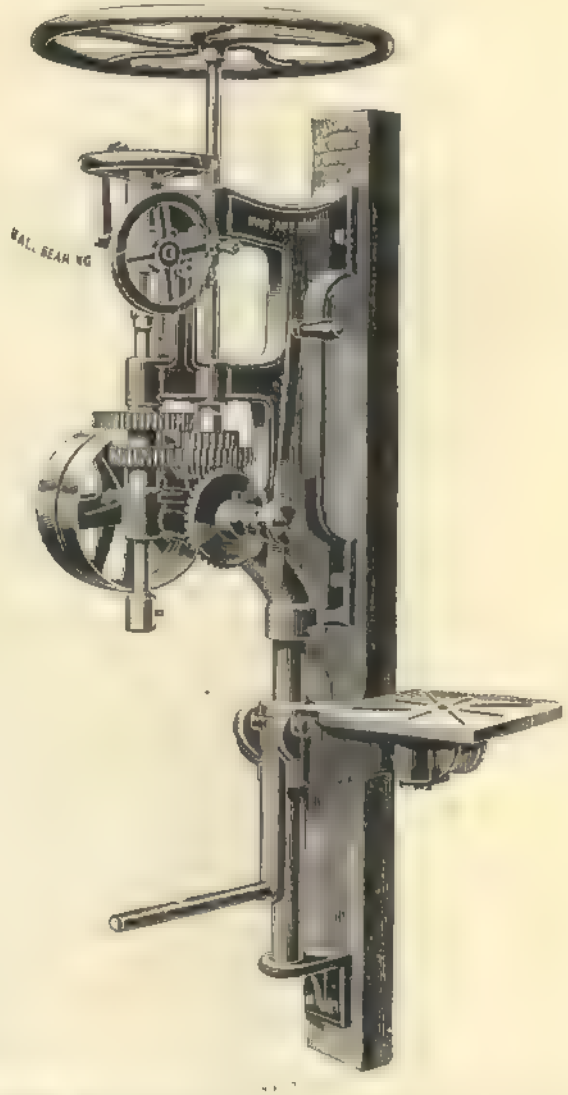


This Drill is built on a new and scientific principle being a tool with merits worth looking into by all who are in want of a large [illegible] Blacksmith Drill. The gearing is designed for easy and quick [illegible] being compounded for increasing power. The side fly wheel [illegible] with the top fly wheel [illegible] both the fly wheels make two revolutions to one of the crank. The workmanship on this drill is of the best, all bearings [illegible] metal. The [illegible] speed for heavy [illegible] and is changed in an instant simply a change of belt using hand on the side fly wheel.

Spindle bored to take in ½ in. shank drills
Drills to the center of 18 in. circle.
Drills from 0 to 1½ in. hole.

Black Diamond—Weight Each Net, 200 lbs ..... Each, $ 24 00

CUT-GEARED.



A strictly practical and first class Drill for either power exclusively, or hand and power combined.

The improved quick return, or hand feed wheel, is a most important [illegible] this Drill, for both getting the bit out of the work quickly, or to use as a hand feed for drilling holes up to ½ [illegible]

The hand [illegible] wheel is [illegible] value in feeding especially, when the Drill is run by power giving [illegible] the speed and advantage gained in the latest [illegible] gate largest [illegible] shipped. The [illegible] bearing will reduce belt friction when drilling from 25 to 50 per cent.

The wheel holder is intended to hold and turn wheels on for drilling tire and preventing the scuffing of painted wheels.

Pulleys 10 by 2½ in.
Speed for ordinary work, 180 revolutions per minute
Spindle bored to take in 41/64 in. straight shank drills
Drills [illegible] of a 19 in. circle
Drills from [illegible] to 1½ in. hole.

Ball-Bearing

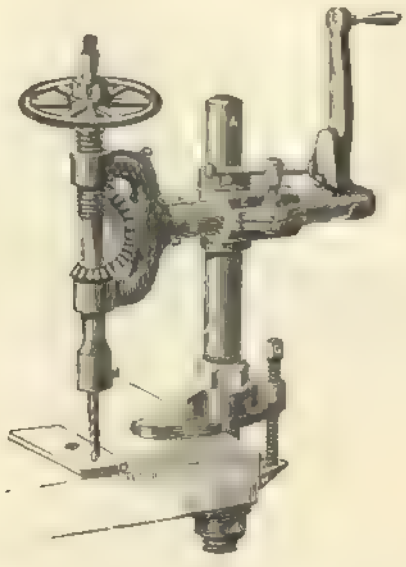
ONE THIRD DOZEN IN A CASE

ANGULAR DRILLING MACHINES.

UNIVERSAL.



No

These Drilling Machines are made of steel, and are first-class in all respects. For repair work in mills, they are almost indispensible, as they can be attached to a broken machine without taking it apart and swung around to drill at any angle. By placing the crank on the drill spindle it will work with a ratchet or without. A chuck is furnished with each machine, which will hold 1/16 to 1/2 inch drills.

The Twist Drill 1/4 inch with 1/2 inch shank is sent with each machine. For 1/4 inch drills and all larger sizes the 1/2 inch shanks are recommended.

No. 1 Painted Green, Drills up to 3/8 in. hole, Weight Each, 40 lbs. Each, $ 20 00

"Meloton" Pianos

FULLY GUARANTEED FOR FIVE YEARS.

Hundreds Now in Use.

Superb Tone.

Responsive Action.

Beautiful Designs.

Perfect Construction.

"Meloton" Orchestral Grand.

The "Meloton" represents the very acme of perfection in the art of modern piano-forte construction.

The Meloton Piano.

A High-class Instrument at a Moderate Figure.

In accordance with the accepted rule of the piano trade, we present a limited number of the many testimonials that we have received extolling the fine qualities of the "Meloton" piano.

These testimonials are not those of the "great artists" whose names ofttimes appear as endorsing this or that make "exclusively" (at so much per endorsement), but what is more convincing, bona-fide letters of praise selected at random from the hundreds received from dealers and others throughout the country.

Photographic copies of the following, and many other letters will be sent on application.

502 West 145th St., N. Y.
JUNE 20th, 1899

DEAR SIRS:

We are more than pleased with the "Meloton" piano. It is a magnificent, beautifully toned instrument

Yours truly,
E. J. LAKE.

TURBOTVILLE, PA., JULY 7th, 1899.

GENTLEMEN:

The "Meloton" piano bought of you gives entire satisfaction, and is pronounced by all who have tried it to be superior in tone and action to many costing more than double the price of the "Meloton."

Yours truly,
H K. ACKERMANN

MAYSVILLE, KY., MAY 15th, 1899.

GENTLEMEN:

My customer is more than pleased with the "Meloton" piano.

Yours respectfully,
M. A. SWIFT

BROOKHAVEN, N. Y., AUG. 15th, 1899.

GENTLEMEN:

I have waited a few days before writing you in regard to the "Meloton" piano, in order to have it thoroughly tested by competent musicians. They have all pronounced it first-class in every respect, and to say that I am well pleased with it is to use a mild expression, and I know I could not duplicate it for almost twice the money

Sincerely thanking you for your kindness in sending me such a fine instrument, I am,

Very truly yours,
J. L. VALENTINE

PARNASSUS, PA., JUNE 1st, 1899.

GENTLEMEN.

The "Meloton" piano has given satisfaction in every respect.

J. W. McCONNELL.

ST LOUIS CROSSING, IND.

DEAR SIRS

We are very much pleased with the "Meloton" piano It is the best we have ever seen for the money. Is a large, beautiful instrument, has a rich tone and lovely action.

Yours respectfully,
J. M NEWTON.

MERIDEN, CONN., FEB. 18th, 1899.

GENTLEMEN:

The "Meloton" piano sent us in December has given perfect satisfaction.

It will lead to more sales.

Respectfully,
SHERWOOD & SON

WOODSTOCK N. Y., JUNE 17, 1899.

GENTLEMEN

The "Meloton" piano is satisfactory in every respect My daughter writes that it exceeds her expectations and that she is more than pleased with it

Yours truly,
EDGAR SNYDER

251 Fifth Avenue, N. Y.
JULY 1st, 1899

GENTLEMEN:

The "Meloton" piano purchased from you last yea seems to improve with usage The tone, so beautiful a first, grows mellower from day to day.

Respectfully,
EDWARD FESSER

---

28 Palmetto St., Brooklyn.
JULY 29th, 1899

DEAR SIRS:

I am only too happy to testify to the merits of th "Meloton" piano. It certainly is the finest instrument point of tone, action and outward appearance I have ev played upon. Wishing you, with the "Meloton," the su cess it deserves, I am,

Very respectfully,
H. I. JOHNSON.

Piano Stools, Scarfs and Hoods on Page 623.

The Meloton Piano.

A High-class Instrument at a Moderate Figure.

FULLY GUARANTEED FOR FIVE YEARS.

We aim to give the best possible value, but on close to cash terms only, and our own guarantee, coupled with that of the makers, will accompany each instrument. *We are willing to ship the "Meloton" piano to any point on 10 days' approval, and, should it prove unsatisfactory, pay the return freight charges.*

A Word of Advice to the Prospective Purchaser.

When about to purchase a piano, the paramount question for consideration should be the standing of the firm from whose stock it may seem advisable to make the selection. The reason for this is obvious: the construction of a piano-forte is not a secret process, an impression some manufacturers strive to create, but, on the contrary, a well-defined science. Hence, while the conscientious manufacturer, following closely the dictates of this science, may construct a perfect, durable piano; the unscrupulous make, who resorts to cheapening methods can produce a counterpart in appearance, temporarily pleasing to the ear and eye, though defective in the most vital points. Such defects are not always apparent, but when manifest the tone of the piano will at once grate upon the ear, the case become an eyesore, and its very possession "a thorn in the flesh."

The maker of such an instrument might issue a guarantee in perpetuity; but of what avail the guarantee of an irresponsible concern? Would it not be safer to buy from an old-established firm, whose reputation, born of honest dealings precludes a possible doubt as to the result? In this connection, for the benefit of those who do not know us, it may be said that the *S. F. MYERS CO.* can point with pardonable pride to an enviable well-earned reputation, extending over a career of a quarter of a century, and to the encomiums of thousands of customers at home and abroad.

Such is the source from which emanates the endorsement of the "Meloton" piano.

The Meloton is made in a co-operative shop with all that that implies: the limited output of which permits of that individuality so very essential, but impracticable in the giant concerns: by men whose skill, the result of a lifelong study of the art in the older piano factories, imparts to every detail that rich characteristic of their training. The tone, powerful yet organ-like in its modulation and mellow action elastic and responsive in the highest degree, and case of exquisite design and finish, have made the exposure of the admiration of the music loving public. As to price, there is just one thing to be said. The piano prices of to-day are ridiculous and should not be accepted as a criterion of worth, but rather as evidence of the expensive business system, the maintenance of which makes large profit essential. Not so with the price of the "Meloton" piano which, consistent with a low scale of profit that prevails throughout our establishment, often elicits the query: "How can a really good piano be sold at such a low figure?" An answer to this lies in the comparison of two business methods: that of an ordinary dealer and that of a wholesale house. On the one hand, we have the advocate of high prices, the piano manufacturer, dependent upon the sale of pianos alone to pay rent, employees, and the multitudinous incidental expenses, especially advertising, in which of necessity he must heavily invest; and on the other hand a close margin firm in their own building, utilizing just such space and floor regals, clerical force excepting, the head of the piano department (an acknowledged authority) for the handling of pianos in conjunction with other lines. The latter, descriptive of our method, is the secret of the "Meloton," being sold at a figure unprecedented in the annals of the Piano Trade.

The Meloton Piano.

A High-class Instrument at a Moderate Figure.

The Tone that crucial test of the pianomaker's skill, is susceptible of every delicate shade of expression, the direct result of accoustically perfect construction A deep, sonorous bass, a brilliant treble, a resonant middle register, and throughout all a mellowness unequaled -whence comes the name "MELOTON," which connoisseurs declare most fitting

The Action is patterned after the double lever grand repeating action, avowedly the most perfected type, with an improved nickel action rail and tubular hammer rail that add great strength to the construction The hammers, of the best American felt, are of the largest size, and the action bearings are cunningly devised to withstand atmospherical changes and obviate the possible sticking of the keys in damp weather The careful ensembling of the parts, precise as the adjustment of a watch movement, is the secret of the firm, yet elastic, touch of the "Meloton" piano It combines both power and delicacy with perfect accuracy and repetition.

The Scale, the very fundament of tone, embraces many features original with the "Meloton," and is so designed as to produce the utmost volume The Three Stringed unison throughout middle and treble registers, with the greatest possible length of string, is the medium through which this result is obtained. The "Meloton" Scale, emulated by pianomakers universally, is conceded to be the scale par excellence

The Sounding Board, the accurate construction of which is of such vital importance, is a significant feature in the "Meloton" piano, and is the result of years of practical research It is of unusually large dimensions, made of the choicest balsam-fir the most resonant of woods—and imparts a "*Color*" and intensity to the tone quite foreign to pianos of the ordinary type

The Frame. To resist the tremendous strain of the scale, the iron frame of the "Meloton" piano is specially designed full flanged, re-enforced and (were it necessary) capable of withstanding double the pressure to which it is subjected The wooden frame, the foundation of a piano, so to speak, and the very backbone of the instrument, is made of the best well seasoned woods, and, like the iron frame, is of an improved extra massive pattern of more than ordinary strength

The Pin-Block, of heavy cross-banded veneers of rock-maple, holds the pins as in a vice one reason why the "Meloton" piano stands so well in tune.

Meloton Pianos.

List Prices.

Style "Orchestral Grand."

Original in conception Massive, but symmetrical in design Handsome quadruple veneered case, exquisitely hand carved panels, richly carved friezes and columns, full swing duet music desk, Boston fall board and MELOTON HARMONIC MUFFLER, with German silver muffler rail

This Muffler, controlled by the middle pedal, is a distinct innovation and valuable addition, at the will of the performer it reduces the volume of tone to the softest pianissimo, permitting the student to practice without annoyance to others, and, by saving the wear and tear on the hammer felts, prolongs the life of the piano

In addition to the many exclusive features of the other styles, this one is provided with the celebrated Pohlmann copper bass strings, lending that sonorous depth of tone incident to the "Meloton" Orchestral Grand, but not to be found in any other make of upright piano

No. 43801	"Orchestral Grand" in Honduras Walnut	$530 00
No. 43802	"Orchestral Grand" in Fancy Mahogany	530 00

Style "Concert Grand."

Elaborate and very ornamental design in beautiful double veneered case, relief work panels of artistic pattern carved pilasters, duet music desk, Boston fall board and Meloton Harmonic Muffler.

No. 43803	"Concert Grand" in Honduras Walnut	$437 50
No. 43804	"Concert Grand" in Fancy Mahogany	437 50
No. 43805	"Concert Grand" in Quartered Oak	437 50

Style "Cabinet Grand."

A beautiful instrument of the cabinet pattern, double veneered case, carved panels and pilasters, full width automatic music desk, Boston fall board and muffler pedal.

No. 43806	"Cabinet Grand" in Honduras Walnut	$350 00
No. 43807	"Cabinet Grand" in Mahogany	350 00
No. 43808	"Cabinet Grand" in Quartered Oak	350 00

All ornamentations, such as trusses, pilasters and carved panels and other carvings, are subject to changes without notice, according to the prevailing style.

Photographic Department.

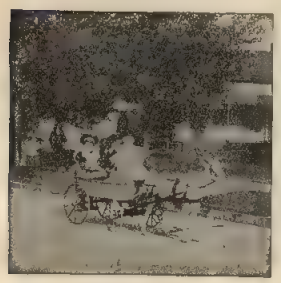
To the Trade

Our assortment of Cameras for 1900 show a **Choice Selection of the Most Reliable Productions,** containing every new and meritorious feature and embracing outfits at such moderate cost that the demands of even the most modest amateur can be fully met, while for those desiring instruments of a higher type we have a large number of styles from which the most advanced worker cannot fail to make a satisfactory selection

Photography is growing more and more in favor the world over. It affords greater attractions than all the arts heretofore introduced in popular form, for, while it answers fully the requirements of mechanical taste, it offers constant opportunities for the exercise of other intellectual qualities.

Dealers appreciate the fact that the supplying of the amateur's wants is here to stay, and is steadily on the increase.

As the head of this department has grown up with its advance (fifteen years' experience), our trade may rest assured of every consideration. E. F. M. Co.



TAKEN WITH A CHELSEA.

Chelsea Cameras.

The Chelseas contain every new and meritorious feature, and we guarantee them against defects in manufacture. We are the sole agents for them and strongly recommend them to the trade.

SHOWS CLOSED.

CHELSEA CYCLE FOLDING.

Price includes one Double Plate Holder and Carrying Case complete.

No. 55001	Takes picture 4x5, with single achromatic lens	$22 50
No. 55002	Same, takes pictures 5x7	33 75
No. 55003	Takes picture 4x5, with instantaneous symmetrical lens	26 15
No. 55004	Same, takes picture 5x7	45 00
No. 55005	Extra Double Plate Holders 4x5	2 20
No. 55006	Extra Double Plate Holders, 5x7	2 85

Weight of camera, including carrying case, 50 oz.

Outside dimensions of carrying case, 5x9½x7 in

For Tourist and Cycle use this camera cannot be excelled. A high grade camera at a low price. Is very compact and the smallest camera possessing all improvements and facilities.

The Lens. Fitted with the celebrated Chelsea Rapid Rectilinear or single Achromatic, which for depth, definition and sharpness is unequaled

The Shutter is far superior to any yet made, having three speed bulbs instantaneous and time exposures. Also incorporates with the iris diaphragm, which permits of any opening desired, a feature never before used, being specially designed for this camera only.

The Construction. Is made of highly polished cherry, covered with finest morocco leather metal trimmings nickel-plated trimmings and new leather bellows. Has a rising and falling front ground glass shield hid by a hood, operated by a spring, thereby avoiding the use of a focusing cloth. This is a new and desirable feature.

The View Finder is protected by a hood, enabling the operator to fully see all I ange the objects in view.

Carrying Case with strap which holds three double plate holders and the camera.

CHELSEA IMPROVED FOLDING

Price includes one Double Plate Holder

No. 55007	Takes picture 4x5,	$25 13
No. 55008	Extra Plate Holders	2 05
No. 55009	Cut Film Holders,	2 83
No. 55010	Carryke-lo-l Holder, Empty,	13 75
No. 55011	Light Proof Lo-l Film for 12 Exposures	2 50

Weight of camera 2½ lbs.

Outside dimensions, 4¾ x 7¼ x 6½ inches. Including space for three holders.

This Camera far surpasses any folding camera on the market at a moderate price and for quality, durability and elaborate features cannot be equaled.

The Lens is the renowned Chelsea Rectilinear or Achromatic, which is made especially for this camera. The depth of focus which this lens gives and the sharpness and definition cannot be excelled.

The Shutter is the well-known Chelsea Time and Instantaneous of latest design which is contained in the best shutter made having a dial which indicates instantaneous and time exposures from 1 to 1 of a second. Also fitted with Iris diaphragms, Pneumatic Bulb and Finger Release.

The Construction is double of selected mahogany covered with black grain leather. The appearance of camera when opened is handsome having a finely polished mahogany body, nickel-plated brass and polished trimmings, red leather bellows and perfect contrast with black leather covering. Has a rising and falling front and central swing back which is adjusted by lever and a spring lever working on a series of notches at a brass plate on side of camera, upon opening the door at the side. Pressure on lever will allow the back to swing, locking it in desired position when pressure is removed. Can be used for both hand and tripod work.

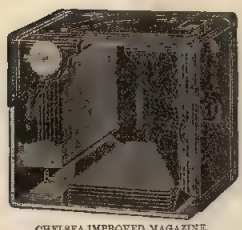
View Finder is reversible, fitted to the bed for upright and horizontal pictures, as on two plates. The ground glass screen is spring actuated and reeded to allow the insertion of the plate holder. Glass plates, cut and roll films may be used as the holders are adapted alike.

The "Amateur Photographer," a complete guide for beginners in the Art-Science of Photography, a Book of 64 pages, given with these Cameras.

Chelsea and Lenox Cameras.

The Best Cameras made for the Price. We call Special Attention to the Quotations.

LIST PRICES EACH.



CHELSEA IMPROVED MAGAZINE.

Price includes 12 Metal Plate Holders.

No. 55012 Takes picture 3¼ x 4¼ $11 25
No. 55013 " " 4¼ x 5½ 12 50
No. 55014 " " 5 x 7 . . . . . 15 00

Pneumatic Bulb Release fitted to any of above at an additional cost of $1.12 list

Outside dimensions of No. 55012 is 5x7¼x7¾ inches; No. 5 013 is 5x7¾x7¼ inches, No. 55014 is 8½x7x8¾ inches

The best and most reliable Camera made, having the following new features: Attachable Bulb Release, Automatic Register, Unloading Attachment, etc.

This Camera has entirely new and mechanical plate changing arrangement that will rapidly and automatically change and count 12 glass plates at one loading. Each instrument is guaranteed to be more simple, perfect and certain of action than any other mechanical magazine Camera ever manufactured.

THE LENS is the celebrated Chelsea Universal Single Achromatic, and is equipped with a removable lens mount.

THE COUNTING DEVICE that registers the exposure is new and simple accurately recording the number of exposures so that the operator can tell how many plates have been used by referring to dial

THE OPERATION.—After having made one or more exposures the plates can be removed from the camera by opening the back and pulling out the drawer from which the exposed plates can be slid into the hand, the balance of plates, if less than 12 pictures have been taken, need not be disturbed.

The 12 plates can be loaded into the magazine at one time, being much more convenient than loading each holder separately, which is necessary in all other cameras.

For simplicity these cameras cannot be surpassed

THE SHUTTER is self-setting, suitable for instantaneous or time exposures, and is the best patent shutter on the market.

Covered with genuine seal leather and have large brilliant view finders, also two tripod sockets

CHELSEA CARTRIDGE FILM

Takes picture 3¼x3¼

Weight 18 ounces. Dimensions 4¼x6¼x6

No. 55015 Camera unloaded $11 25
No. 55016 Cartridge Films for 12 pictures. . . 1 88
No. 55017 " " " 6 " 0 70

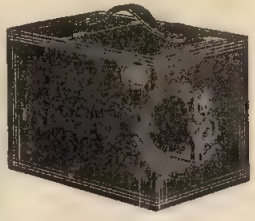
This Camera is the best film Camera placed on the market.

It has the newest and most improved features of a film Camera.

Is simple and easily manipulated for the novice, and these points combined with their superior picture-taking qualities make them valuable.

The Film used in this Camera is of the Cartridge system and requires no dark room to load or unload. Can be loaded for either 6 or 12 pictures

THE LENS is the Chelsea Achromatic, which for depth and definition and sharpness cannot be equaled, each being carefully tested



CHELSEA EXTRA.

Takes picture 4x5.

Weight 18 ounces. Dimensions 8¼x3¾x6¾

No. 55018 Camera including one Double Plate Holder. $8 33
No. 55019 Extra Plate Holder. 1 50

This Camera has many advantages over the ordinary box Camera, being far superior in quality and workmanship and having double lens

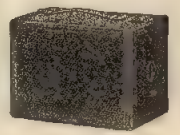
This is the first double lens Camera ever put on the market and giving absolute satisfaction

THE LENS is a Chelsea Double Combination and for definition and sharpness is unequaled

THE SHUTTER the Chelsea patent safety for time or instantaneous exposures. When time exposures are used a small stop is brought before the lens which will be found on left side of Camera. It has two indicators which denote time or instantaneous exposures, which are regulated by a button on the front.

THE VIEW FINDER. It has two for taking pictures either vertical or horizontal and two tripod plates.

Covered with fine grain leather and leather handle Holds three Double Plate Holders.



LENOX SPECIAL

Takes Picture 2¾x3¼

Weight 10 ounces. Dimensions 3¾x4¾x4¼

No. 55020 Camera, including one Double Plate Holder. $2 83
No. 55021 Extra Plate Holder. 0 75

This Camera, for the price, is unequaled, simple and practical

THE LENS is single Achromatic.

THE SHUTTER is for instantaneous exposures.

THE VIEW FINDER is large and brilliant, covered with leatherette, leather handle.

Holds one Double Plate Holder.

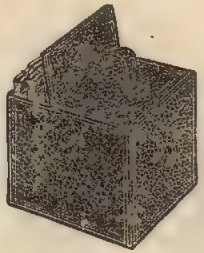
THE FILM of No. 55015 is loaded by a simple device, which is easily and quickly accomplished by placing the cartridge in the camera and the end of the black paper is pulled off, the roll holder which is swung in the center is revolved completely round while the end of the black paper is retained in the hand; when the roll holder has reached its original position the loose end of the paper is ready to be tucked in the empty receiving spool; this completes the loading. In the rear of the Camera a peep hole is supplied to see the number of exposures when the film is rolled from one picture to the next

THE SHUTTER is adapted for both time and instantaneous exposures and is entirely new and simple.

THE LENS and working parts are easily accessible by removing the front board, which allows the lens to be easily cleaned.

THE VIEW FINDER on the top is brilliantly illuminated, showing the picture distinctly, and measures one inch square.

Covered with fine grain leather, and leather handle.



LENOX, JR.

Takes Picture 3¼x3¼.

Weight 12 ounces. Dimensions 3¾x4½x5.

No. 55022 Camera, including one Double Plate Holder $3 75
No. 55023 Extra Plate Holder 1 33

This Camera is capable of producing a good picture and is used extensively by beginners, and is the only camera of its price that has a double plate holder with rubber slides.

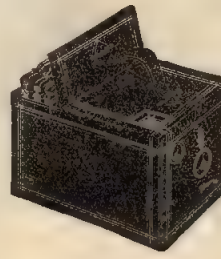
THE LENS is a first class single achromatic.

THE SHUTTER is for both time and instantaneous exposures, which are regulated by a button on the front.

THE VIEW FINDER is large and brilliant.

Covered with leatherette and leather handle.

Holds two Double Plate Holders



LENOX, SR.

Takes Picture 3¾x3¾.

Weight 1 pound. Dimensions 4¾x5¾x7

No. 55024 Camera, including one Double Plate Holder $6 25
No. 55025 Extra Plate Holder. 1 50

For a glass plate Camera, cannot be excelled for making a picture of this size.

THE LENS is achromatic has a focus of 4¾ inches, depth and definition

THE SHUTTER has no complicated parts simple in construction, operated by one lever for both time and instantaneous exposures. Always set ready for use. When making time exposures a small stop is brought before the lens.

THE VIEW FINDER on the top is brilliantly illuminated, showing the picture distinctly, and measures one inch square.

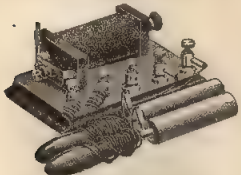
Covered with seal grain leather, leather handle and tripod plate.

Holds three Double Plate Holders.

Electric Novelties and Medical Sets.

LIST PRICES.

THE CHELSEA FAMILY MEDICAL SET



Popular Priced Reliable Electric Medical Set.

To enable those who do not care to purchase an expensive medical battery, but desire one perfect in its working qualities, we have designed this outfit using all the important mechanical and electrical improvements, but mounting them on a polished wood base (metal of it a case. This set works well with any cell of battery, and with one Dry Battery makes an outfit giving the same number and variations of current obtainable in the more expensive set, and fully as reliable.

They are packed in neat pasteboard boxes.

No. 57015.....Each, $5 00

Set includes battery, 1 pair flexible cords with tips, 1 pair insulating handles, 1 pair tube hand electrodes.

No. 57013 Extra dry battery..... Each, $1 00

MEDICAL APPARATUS

Cut shows Electro Medical Apparatus operated by one cell of Mesco dry battery, thus dispensing with acids, chemicals and liquids.

For doctor or patient this electro-medical apparatus is the most convenient and reliable. It is reliable because with its dry battery so much less care is required than is necessary with any other form. The entire absence of acids, liquids or salts will be appreciated by any one who ever had occasion to use a medical battery. The strength of the various currents range from those which are so mild as to be entirely perceptible to the most powerful that can be endured by a strong man

All of the metal parts are nickel plated. Finely finished case. Two conducting cords; two nickel plated hand electrodes; one rheostat handle; one sponge holder; one foot plate with each apparatus.

No.		Each.
57009	Complete, as shown in cut.....	$12 60
57021	Extra dry batteries for above.....	1 25

ELECTRIC GAS LIGHTER AND ILLUMINATOR.

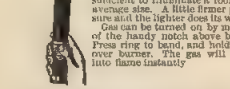
U. S. Patent Jan 10, 1888. Patent pending in all foreign countries.

No. 57081 Complete with Battery .....Each, $11 25
No. 57082 Extra Battery for same . Each, 75

A new and improved device for Gas Lighting and at the same time illuminating the surroundings of the Gas Fixtures. No groping in the dark to find the Gas Burner. No breaking of Globes.

With a slight pressure of the finger a bright light is produced sufficient to illuminate a room of average size. A little firmer pressure and the lighter does its work.

Gas can be turned on by means of the handy notch above bend ring to hand, and held well over burner. The gas will leap into flame instantly



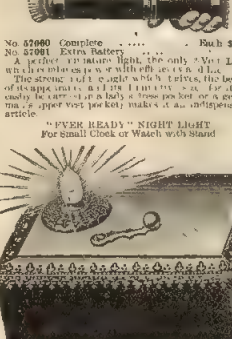
THE "EVER READY BABY" FLASH LIGHT

No. 57060 Complete . . . . . Each $7 50
No. 57061 Extra Battery 65

A perfect portable light, the only "Ever Ready" Lamp which contains power with efficiency and life.

The strong metal case which thrives, the beauty of shape and the light it gives, make it a desirable article easily be carried in a lady's dress pocket or a gentleman's upper vest pocket; makes it an indispensable article.

"EVER READY" NIGHT LIGHT
For Small Clock or Watch with Stand



A neat and useful article. Room at one end of the case to place a small clock or a watch in stand. It gives about 4,000 brief illuminations before battery requires renewal. We can furnish case in Hardwood highly polished, natural or stained finish) or we can furnish in Leather Leather and Ornaments, or Nickeline and Silver as desired

Directions with each lamp simplicity itself

No. 57072 With Battery complete.....Each, $7 50
No. 57073 Extra Battery 75

This shows the miniature lamp which is attached to the Pocket Gas Lighter

ACETYLENE GAS ATTACHMENT

Directions Furnished with each Outfit

Acetylene gas produces a very white and penetrating light and is perfectly safe and economical, its intensity being equal to about ha f that of the Lime or Oxy Hydrogen light, and several times brighter than that of petroleum it is admirably adapted for Lantern purposes.

This gas is generated from Calcic Carbide (which is obtained by the compounding of finely ground lime and coke in an electrically heated furnace) and water. Calcic carbide is now on the market, and can be procured at a reasonable price in suitable quantities.

The Generator consists of two cylinders, one fitting within the other; the outer one holds the water, the inner or upper one contains the gasometer, below which is a metal net for holding the carbide. The rise and fall of the net in and out of the water is regulated by amount of gas in gasometer, and is automatic in its movement. The flow of gas is regulated by stop-cock on top of gasometer; the gas is then purified by passing through the condenser, from which it is conducted by rubber tubing to the jet or burner.

ACETYLENE BURNER.

No.
57111 Acetylene Gas Generator (about 16 ins. high, 11 ins. diameter). Each $17 50
57112 Acetylene Pearl burner Jet (8 tips) ..... Each, 18 75
57113 Hood for enclosing light. Each, 8 75
Calcic Carbide in 10 pound cans, at lowest market rates.
Calcic Carbide in 50 pound cans, at lowest market rates.

When desired a 24 inch Japanned tin horn will be furnished instead of hearing and speaking tubes.

Outfit No. 42508 Columbia Graphophone, recorder, reproducer, three-way hearing tube, speaking tube, 24 inch Japanned tin horn, carrying case for graphophone and [illegible] 125 00

"Nickel-in-Slot" Graphophones. We quote herein the two most popular designs of "Nickel-in-the-Slot" Machines. One is intended for counter use and the other to rest on the floor. Both have a handsome, polished appearance and are built of hard wood.

The only running expense is the trifling amount for the purchase of [illegible] required to operate them. They require no attention.

No. 42510 Eagle Graphophone, clockwork motor, large concert horn and stand 150 00

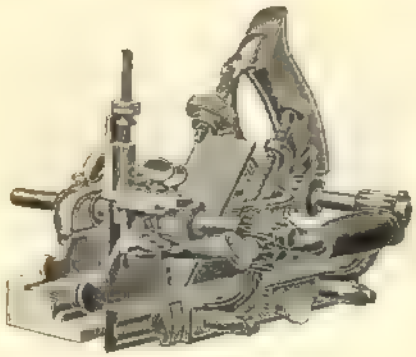
COMBINED PLANES AND BEADERS.

STANLEY'S PATENT UNIVERSAL PLANE.



No. 5

This Tool, in the hands of an ordinary carpenter, can be used for all lines of work covered by a full assortment of so-called Fancy Planes.

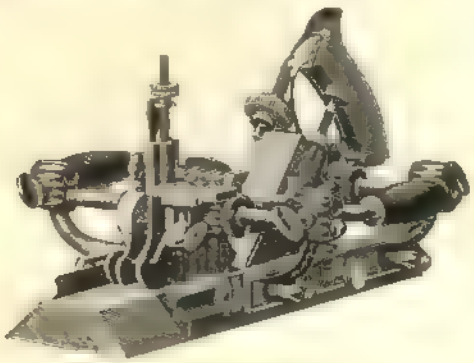
DIRECTIONS.

Moulding Plane.—Insert the desired Cutter, and adjust bottom of Sliding Section (B) to conform to the shape of the Cutter; then fasten this Section firmly by means of the check nuts on the transverse arms. When needed, adjust Auxiliary Center Bottom (C) for an additional support in front of the Cutter. By tilting the rosewood guides on Fences (D and E), mouldings of various angles may be formed.

Match, Sash, Beading, Reeding, Fluting, Hollow, Round, Plow, Rabbet and Filletster Plane.—Use in same manner as for Mouldings. In working Match and Sash Cutters, the Auxiliary Center Bottom (C) may be used as a stop.

Dado.—Remove the Fences (D and E) and set the spurs parallel with the edges of Cutter. Insert long ad- Adjustable Stop on left-hand side of Sliding Section.

Slitting Plane.—Insert the Cutter and Stop on right-hand side of Main Stock and use Fence (D or E) for guide.



As Cranke

Chamfer. Insert the desired Cutter; fasten a Fence on each side of the Plane and tilt the rosewood guides to the desired angle.

Nickel Plated.

No. 55 Stanley's Universal Plane, with 52 Tools, Bits, etc., Wt. Each, 15 lbs Each, $ 16 00

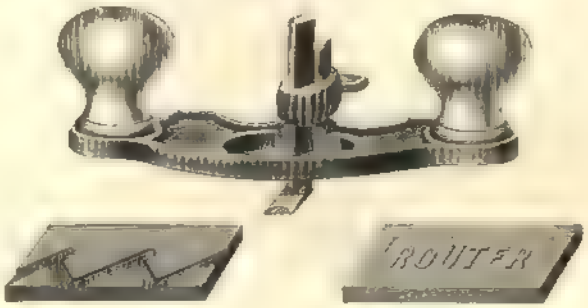
STANLEY'S CABINET SCRAPER.

No 80

No. 80 Raised Handles, 11 in. 2¾ in. Blade, Weight Each, lbs Each, $ 1 00

WOODWORKERS' HANDY ROUTER PLANE.



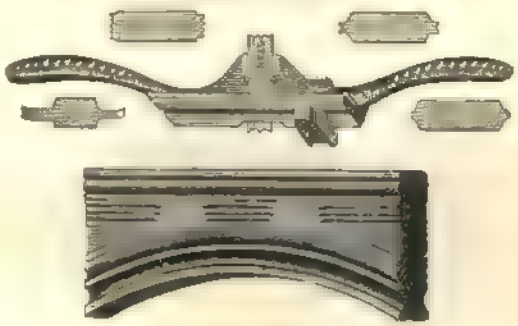
No. 71½

This Tool is perfectly adapted to smooth the bottom of grooves, panels, or all depressions below the general surface of any woodwork.

The Bits can also be clamped to the backside of the upright post, and outside of the stock. In this position they will plane into corners, will router out mortises for Sash-frame Pulleys, or will smooth surfaces not easily reached with any other tool.

No. 71½—Iron Stock, with Steel Bits ¼ and ½ in., Weight Each, 2¾ lbs ....Each, $ 1 25

STANLEY'S UNIVERSAL HAND BEADER.



No. 66

For Beading, Reeding or Fluting straight or irregular surfaces, and for all kinds of light Routering. With a square gauge for straight, and an oval gauge for curved work. Seven superior steel cutters go with each tool. Both ends are sharpened, thus embracing six ordinary sizes of Beads, four sets of Reeds, two Fluters and a double Router Iron (⅜ and ¼ in.).

No. 66—Iron Stock, with Seven Steel Cutters, Weight Each, 1½ lbs.. .... . Each, $ 1 00

Instructions for Weather Forecasting.

ANEROID BAROMETER.

A Rising Barometer

A "Rapid" rise indicates unsettled weather.
A "Gradual" indicates settled weather
A "Rise" with dry air, and cold increasing, in summer indicates wind from north ward, and if rain has fallen better weather is to be expected.
A "Rise" with moist air and low temperature indicates wind and rain from northward
A "Rise" with southerly wind indicates fine weather
A "Steady" Barometer with dry and reasonable temperature indicates a continuance of very fine weather

A Falling Barometer

A "Rapid" fall indicates stormy weather
A "Rapid" fall and westerly wind indicates stormy weather from northward.
A "Fall" with northerly wind indicates storm with rain and hail in Summer and snow in Winter
A "Fall" with increased moisture in the air and heat increasing indicates wind and rain from the southward.
A "Fall" with dry air and cold increasing (in Winter) indicates snow.
A "Fall" after very calm and warm weather indicates rain with squally weather

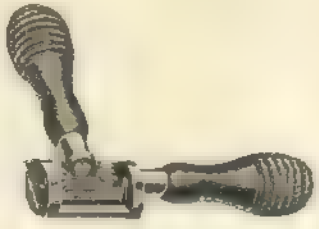
STANLEY'S UNIVERSAL.

No. 67



No. 67

Both handles are detachable and either of them can be screwed into a socket on top of the stock, thus enabling the worker to work into corners or panels, as no other spoke shave can do.

This Spoke Shave has two detachable bottoms, adapting it equally well to circular work or straight, and by means of a movable width gauge, the tool can be used in rabetting.

No. 67 Full Nickle Plated, With Rosewood Handles, Weight per Dozen, 12 lbs. Each, $ 1 50

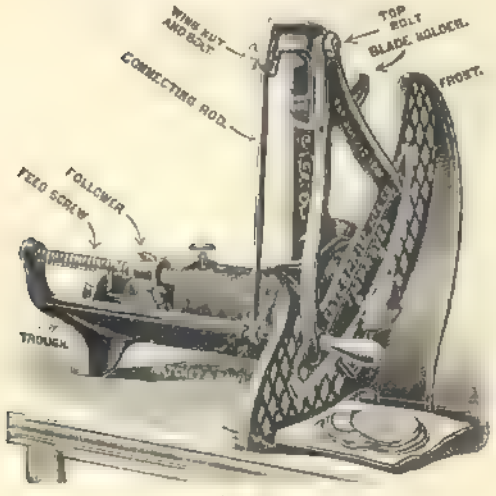
ONE DOZEN IN A CASE

SMOKED BEEF SHAVERS.

ENTERPRISE PENDULUM.



No.

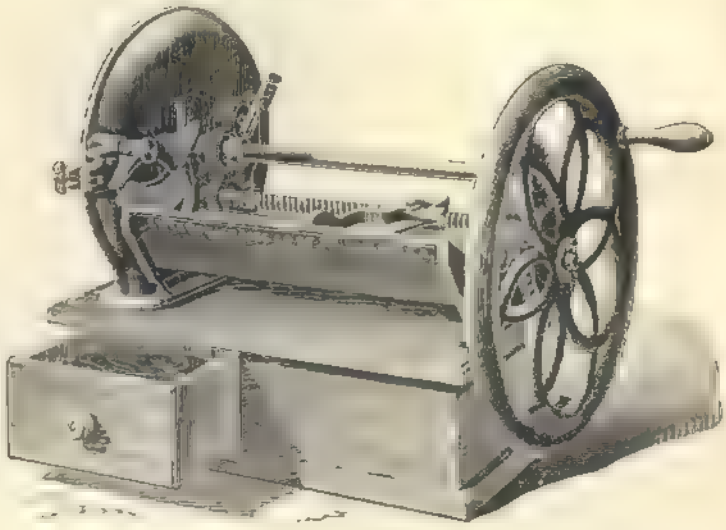
The knife is suspended pendulum fashion and makes draw cut, a nice clean clear cut slice, taking up and moving forward the proper amount of beef. The automatic feed can be regulated to cut from thick as tissue to slices one-eighth of an inch thick by adjusting small bolt holding Connecting Rod

Japanned, To Screw on Counter.

No. 23—Weight Each, 35 lbs .....Each, $ 6 50

ONE IN A CASE

ENTERPRISE ROTARY.



No. 125

The New Rotary Beef Shaver has about five times the capacity of the No 23. Its feed is easily regulated and cannot shift while in use. The Feed takes place when the Knives are not cutting, therefore the slices are of uniform thickness, from that of tissue paper to an eighth of an inch according as machine is adjusted. The sliced beef falls into a Drawer which holds about two pounds, providing a receptacle for beef sliced in excess of what is immediately wanted

Japanned, With Drawer.

No. 125—Weight Each, 95 lbs Each, $ 18 00

ONE IN A CASE

MOLASSES AND OIL GATES.

Band Instruments.

The World Renowned "La Fayette" Brass Instruments.

We have secured the sole agency for the United States of these renowned instruments, and, as importers, sell direct to the retail trade. They have been in the market, both in Europe and America, for more than forty years, and are universally conceded to be without their equal in either country. Their perfection of tone, elegance of finish, beauty of contour and easy blowing qualities, together with the durable character of their construction, have made them the favorite with professional and amateur alike throughout the world.

With German Silver Light Action Piston Valves, Water Key, Music Rack and Silver-Plated Mouthpiece.

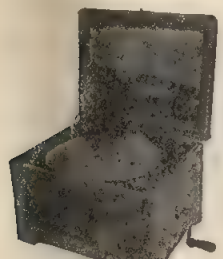
"Olympia" Music Boxes.

Self-playing, with Interchangeable Music Discs. LIST PRICES

The Olympia, the American-made music box, represents the very acme of perfection in the art of music-box making. Its volume and purity of tone, simplicity of construction, and beauty of design and finish, place it beyond comparison with any other make of music box. The nominal price of the interchangeable "tune discs," each containing a complete musical selection, and the almost unlimited number of musical arrangements that may be had, permit the possessor of an "Olympia" to have a constantly changing and up-to-date repertoire. The "Olympia" is actuated by a powerful clockwork motor, and will run about half an hour with one winding. A child can operate it. It renders beautiful arrangements of selections from grand opera, light opera, the popular songs, etc., in a most artistic manner, and plays dance music in perfect unvarying rhythm. *Any style may be had in Mahogany or Oak Case. When ordering, mention which wood is desired. When ordering tunes, both the disc numbers and the box numbers should be specified.*



Style 1. No. 43001

No. 43001 Single Comb, 41 Tongues. Size Base, 12¾x9¾ in.; height, 8 in.; highly polished $27 50

PLANE IRONS.

☞ In ordering Bailey or Stanley Single Irons, please note that the same Iron fits all the Planes placed opposite the sizes given below.

In ordering Double Irons or Cap Irons, always designate the Nos. of the Planes for which they are wanted. For with the Double Irons the slot in the Cap Iron is not the same in the Iron Planes as in the Wood Planes.

BAILEY IRONS.

Inch	S'gle	D'ble	For No. Plane.
1¼	$ 0.20	$ 0.40	Each. 1
1⅝	.25	.45	" 2
1⅞	.28	.50	" 3, 4, 10, 20, 21, 22, 23, 25, 113
2	.30	.57	" 5, 6, 9, 24, 26, 45

Violin, 'Cello and Bass Bows.

Exceptionally Fine Violins.

LIST PRICES.

In addition to those quoted herein, we carry a select stock of very fine old violins of various models and prices. Our constantly changing supply makes it impracticable to catalogue these instruments, but we will be glad to send one or more for selection on application. In ordering, style (whether new, old or "imitation old"), model, color and approximate price should be specified.

Plate and Film Cameras.

LIST PRICES EACH.

REVERSIBLE BACK PREMO.

Focal Capacity or Length of Bellows.
No. 55201 or 4x5, 12½ inches. No. 55202 or 5x7, 23 inches.
Price includes one Double Plate Holder

No. 55201 Takes picture 4x5 ..... $30 00
No. 55202 " " 5x7 ..... 100 00

Fitted with Wide Angle Lens, 4x5, at additional cost of.... 20 00
Fitted with Wide Angle Lens, 5x7, at additional cost of.... 38 75

This camera is designed to cover a field as wide in range as to be almost universal in its application. In general appearance this camera resembles the Long Focus Premo though it has a greater focal capacity. The adjustment is especially desirable when the camera is used on a tripod, as the position of the plate may be easily changed without moving the camera. Has a double swing back, both rising and falling front, and fine rack and pinion movement. Glass Plates or Roll Film may be used.

THE LENS is the Victor Rapid Rectilinear.

THE SHUTTER is the Victor New Improved Iris Diaphragm Pneumatic Bulb and Finger Release.

CONSTRUCTION of fine polished mahogany fine morocco covered; polished brass and nickeled trimmings, lacquered.

PONY PREMO No. 4.

Weight, 2 pounds. Dimensions when closed, 2¾x4¾x5½. Takes picture 4x5.

Price includes one Double Plate Holder and Carrying Case.

No. 55205 With Achromatic Lens $30 00
No. 55209 With Victor Rapid Rectilinear Lens 40 00

This camera is of good material, has a rising and falling front, reversible back, which permits the plate to be changed from horizontal to vertical position. Can be used for either plate or roll film.

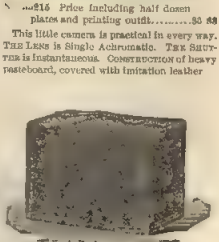
THE SHUTTER is a Victor Improved Adjustable Diaphragm, Pneumatic Bulb and Finger Release.

CONSTRUCTION is of polished mahogany, fine morocco covered, polished and lacquered brass trimmings. Carrying case of fine leather, holding camera complete and 3 Plate Holders or Roll Holder.

TOT POCKET, FOR CHILDREN.

No. 55216 Price including half dozen plates and printing outfit..... $5 88

This little camera is practical in every way. THE LENS is Single Achromatic. THE SHUTTER is Instantaneous. CONSTRUCTION of heavy pasteboard, covered with imitation leather.



BUCKEYE CARTRIDGE FILM.

Weight, 28 ounces. Dimensions, 4¾x4¾x5¾.

No. 55216 Takes picture 3¼x3¼, unloaded $16 25
No. 55217 Takes picture 4x5, unloaded, 21 25
No. 55218 Film 3¼x3¼, 12 exposures, 1 38
No. 55219 " 4x5, 12 " 2 08

This camera is well made and finely finished has Aluminum front. The Diaphragm is a metal disc revolving in front of lens, which projects, to easily adjust. THE LENS is Single Achromatic. THE SHUTTER is new improved for time and instantaneous exposures. THE FILM is of the cartridge variety, and may be loaded without a dark room. Covered with fine grain leather, leather handle, and has tripod screw.

LONG FOCUS PREMO.

Focal Capacity or Length of Bellows.
No. 55204 or 4x5, 15 inches. No. 55205 or 5x7, 19 inches.
Price includes one Double Plate Holder.

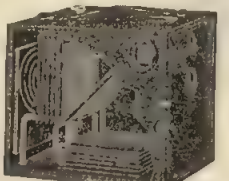
No. 55204 Takes picture 4x5 ..... $70 00
No. 55205 " " 5x7 ..... 90 00

This camera, though containing the features of both hand and tripod camera, is compact and light in weight, yet every adjustment may be quickly made. The extra length of draw is obtained by the addition of a folding back which drops into position by dropping a spring at the top. Has double swing back, double sliding top, and a fine rack and pinion movement for focusing.

THE LENS is the Victor Rapid Rectilinear.

THE SHUTTER is the Victor Improved Iris Diaphragm, Pneumatic Bulb and Finger Release.

CONSTRUCTION of fine polished mahogany, fine morocco leather, polished brass, lacquered trimmings, and has two tripod plates.



CYCLONE MAGAZINE (1898 MODEL).

Price includes 12 Plate Holders.

No. 55210 Takes picture 2¾x2¾ $5 63
No. 55211 " " 3¼x3¼ 10 95
No. 55212 " " 4x5 ..... 14 58

This camera is easy working and simple in construction; when you make 12 exposures it is only necessary to open back and draw out the magazine which carries the 12 plates with it, all of which can be lifted at one time.

THE LENS is the Universal Focus Single Achromatic.

THE SHUTTER is of simple construction, and always set for either time or instantaneous exposures. Covered with fine morocco leather and lined. Has 2 tripod plates.

STEREOSCOPIC PREMO.

No. 55220 Takes picture 5x7 ..... $110 00

Stereoscopic photography is one of the most interesting branches of the art, and as the Hand Camera is now designed especially for this class of work, it will undoubtedly gain favor among a large number of amateurs, who have heretofore never attempted the production of Stereoscopic pictures.

The Stereo Lenses are a matched pair of 4x5 Rapid Rectilinear Lenses, same as used with 4x5 Premo A, and fitted with Bausch & Lomb Stereo Shutter, which is constructed closely after the Diaphragm Shutter.

This Shutter is designed especially for use with Stereoscopic Lenses. The action is so perfect that exactly the same amount of light is admitted through both lenses.

PREMO "D."

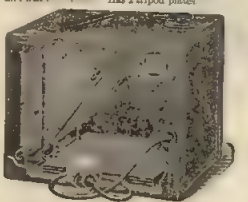
No. 55206 Takes pictures 4x5 ..... $20 00
No. 55207 Extra Holder 4x5 ..... 2 00

This camera will find favor among a large class of amateurs desiring a thoroughly practical outfit at a moderate cost.

THE LENS is the Single Achromatic.

THE SHUTTER is the New Safety for both time and instantaneous exposure with Rocking Diaphragm.

CONSTRUCTION of the camera of the best workmanship. It is exceedingly neat in appearance, being shellacked inside and covered with fine black leather outside.



CYCLONE MAGAZINE (1899 MODEL).

Price includes 12 Plate Holders.

No. 55213 Takes picture 3¼x3¼ $14 58
No. 55214 " 4x5 ..... 18 75

This camera is an improvement on the 1898 Model, having Detachable Bulb Release, Automatic Register, Aluminum Holders, all and any of the exposed plates can be removed without disturbing the ones not used. THE LENS is Single Achromatic. THE SHUTTER is Automatic with Diaphragm. Covered with fine morocco leather, leather handle, has 2 tripod plates.

Poco Cameras.

LIST PRICES EACH.

POCO FOLDING, SERIES D.

No. 55264	Takes Pictures 4x5	$24 00
No. 55265	" " 5x7	30 00
No. 55266	Extra Holders 4x5	1 50
No. 55267	" " 5x7	2 00

This camera is designed and made in the same thorough and complete manner as the other series. It was constructed more especially to meet the requirements of those desiring a compact folding camera at a moderate price. It is made of mahogany, finely polished, with all metal parts of brass, polished and lacquered showing the same beautiful contrast as the more expensive instruments. The outside is covered with selected Morocco grain leather with leather handle.

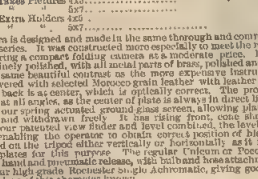
The focusing back is at center, which is optically correct. The proper focus being retained at all angles, as the center of plate is always in direct lines with the lens. It has our spring actuated ground glass screen, allowing plate holders to be inserted and withdrawn freely. It has rising front, cone shaped leather bellows and our patented view finder and level combined, the level working in plain view enabling the operator to obtain correct position of his subject. It can be placed on the tripod either vertically or horizontally as it is fitted with two tripod plates for this purpose. The regular Unicum or Poco shutter, with diaphragms, hand and pneumatic release, with bulb and hose attachment is fitted. The lens is our high grade Rochester Single Achromatic, giving good definition and the best lens of this character known.

POCO FOLDING, SERIES E.

No. 55268	Takes Pictures 4x5	$16 00
No. 55269	" " 5x7	24 00
No. 55270	Extra Holders 4x5	1 50
No. 55271	" " 5x7	2 00

This camera is made on the same general plan as the Tele-Photo Poco with the Cycle Poco features. It is a little larger than the Cycle Poco, owing to the reversible back and extra long draw.

The 5x7 measures 6½x8½ inches. The draw extends to 15 inches. This will be very advantageous in taking distant views, as it will allow of using long focus lenses, or the rear combination alone of the regular lens. The reversible back is one of the essential features, as views may be taken either in a horizontal or vertical position without altering the position of the camera. It is also equipped with the swing back which is operated by three push buttons; by pressing the two buttons on the side of the camera box, the back of the camera proper will extend one-half inch which leaves room for the swings to operate. Another button at top of camera regulates the swings, which are at centers. The construction and material used is identical with our other makes of high grade instruments. It has rising front, the rack and pinion focusing movement, our combined view finder and level, Unicum shutter fitted with our high-grade Rochester Symetrical lens and sole leather carrying case.



CYCLE POCO COPYING

No. 55283	Takes picture 6½x8½	$24 00
No. 55280	" " 8 x10	28 00
No. 55270	Extra Holders 6½x8½	2 50
No. 55271	" " 8 x10	3 13

This camera is especially designed for use with any of the series of Cycle Pocos. It is used for copying pictures or can be used as a long focus camera in combination with the Cycle Poco. After the Cycle Poco is attached the front lens may be removed, using the back combination only, which will nearly double the size of the picture.

The Cycle Poco is easily adjusted to the Copying Camera by simply removing the back and using the attachment supplied with the Copying Camera for that purpose. The illustration herewith shows the Cycle Poco adjusted to the camera and ready for an exposure.

This camera can be used as a view camera by fitting a lens board into the front, either with a shutter and lens or with lens alone, as may be desired, and Lucidine 8x10.

The camera is made in the best possible manner of seasoned cherry, highly finished and has work polished and lacquered. The bellows is made of bellows pure soft rubber, especially for long draw cameras.

It is carrying a swivel back and can be used reversibly and returning when desired. The bed fits up against the camera for convenience when not in use.

Only two sizes of back are made, the 6½x8½ and 8x10. The front of the 8x10 will hold 5x7 Cycle Poco, and with an adapter a 4x5 can be used. The front of the 6½x8½ will hold a 4x5 Cycle Poco only.

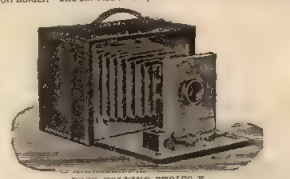
POCO FOLDING, SERIES C.

No. 55272	Takes Pictures 4x5	$28 00
No. 55273	" " 5x7	36 00
No. 55274	Extra Holders 4x5	1 50
No. 55275	" " 5x7	2 00

This camera is placed upon the market for the purpose of meeting a demand for a camera of the name. It deserves to be very popular as its quality and price commends it to the trade. It is made of polished mahogany trimmed with polished lacquered brass throughout, covered with the finest Morocco and grain leather, has leather handles and is self-contained when closed no metal parts showing.

The single swing back swinging perpendicular is operated from the center, which in no way affects the focus of the camera while being used. It has rising front spring-actuated ground-glass screen, large panel at the back to focus on ground-glass when using tripod and Poco reversing view finder and level combined. It is practically a counterpart of Series B, with the exception of the rack and pinion focusing movement.

The Poco or Unicum shutter with iris diaphragms, finger and pneumatic release and rubber bulb and hose are fitted. The lens is our Rapid Rectilinear, adapted for all general work. It is interchangeable with our wide angle lens when so desired. This camera is made in two sizes only. The 4x5 size carries four plate holders or roll holder. The 5x7 size three plate holders or roll holder.



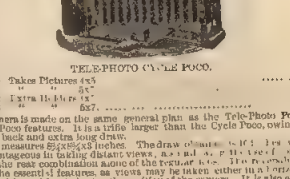
POCO FOLDING SERIES E.

No. 55276	Takes Pictures 4x5	$16 00
No. 55277	" " 5x7	24 00
No. 55278	Extra Holders 4x5	1 50
No. 55279	" " 5x7	2 00

A model of the workman's art, the same care being exercised in its manufacture as in the more complicated and expensive instruments.

The construction, excepting the front, is practically the same as in Series D and B. The wood parts being polished mahogany, all brass work being highly nickeled and lacquered. The camera is covered with selected Morocco grain leather, with leather handle, spring-actuated ground-glass screen, allowing the plates to be inserted, the ground glass receiving for this purpose and returning to position when plates are withdrawn. Our combined reversible view finder and level is fitted as in the more expensive instruments insuring a perfect picture. The level is always in sight as it works on top of the finder.

The shutter and camera front are combined, leaving no loose or detachable parts. It is very simple in manipulation, being fitted with a small, nulled head screw on the front for setting the shutter, the leaves remaining entirely over the lens while setting. Either time or instantaneous exposures can be made, small levers being placed for this purpose marked T and I. Instantaneous exposures are made by pressing lever I; time exposures by pressing over T, which opens the shutter, then over I which closes it after the view has been taken. It is also fitted with speed regulator. The lens is our regular high grade single Achromatic, which works perfectly.



TELE-PHOTO CYCLE POCO.

No. 55280	Takes Pictures 4x5	$60 00
No. 55281	" " 5x7	70 00
No. 55282	Extra Holders 4x5	1 50
No. 55283	" " 5x7	2 00

This camera is made on the same general plan as the Tele-Photo Poco with the Cycle Poco features. It is a little larger than the Cycle Poco, owing to the reversible back and extra long draw.

The 5x7 measures 6½x8½ inches. The draw extends to 15 inches. This will be very advantageous in taking distant views, as it will allow of using long focus lenses, or the rear combination alone of the regular lens. The reversible back is one of the essential features, as views may be taken either in a horizontal or vertical position without altering the position of the camera. It is also equipped with the swing back which is operated by three push buttons; by pressing the two buttons on the side of the camera box, the back of the camera proper will extend one-half inch which leaves room for the swings to operate. Another button at top of camera regulates the swings, which are at centers. The construction and material used is identical with our other makes of high grade instruments. It has rising front, the rack and pinion focusing movement, our combined view finder and level, Unicum shutter fitted with our high-grade Rochester Symetrical lens and sole leather carrying case.

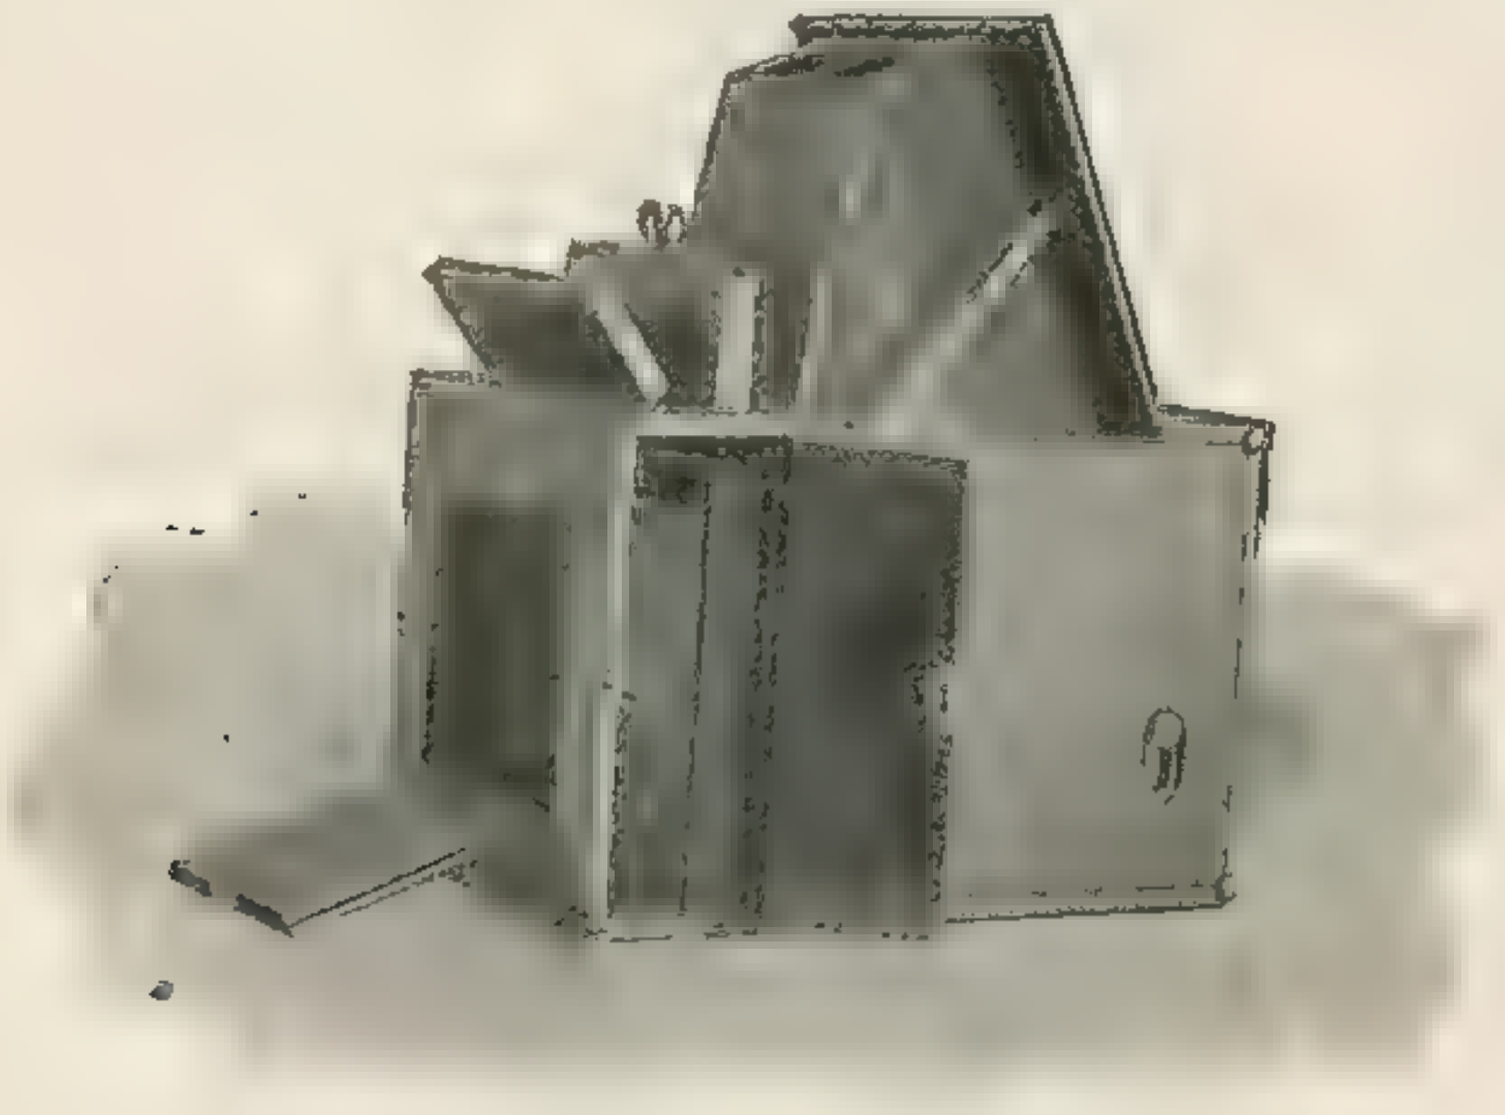
SMASHED!

The New Patent Reflex Hand Camera

OPENS UP A NEW FIELD IN PHOTOGRAPHY,

And for INSTANTANEOUS WORK is without a peer.

Animal studies, sporting scenes, children and poorly lighted subjects which have given rise to so many unsuccessful attempts with snap-shot hand cameras are within the possibilities to the man equipped with a Reflex Hand Camera.



The delight of seeing the **exact picture** on the ground glass, up to the very second of exposure is a welcome innovation to the up-to-date amateur. No other camera has this feature. No more **guess work.** Insist on having a **Reflex** even if you have to send to the makers.

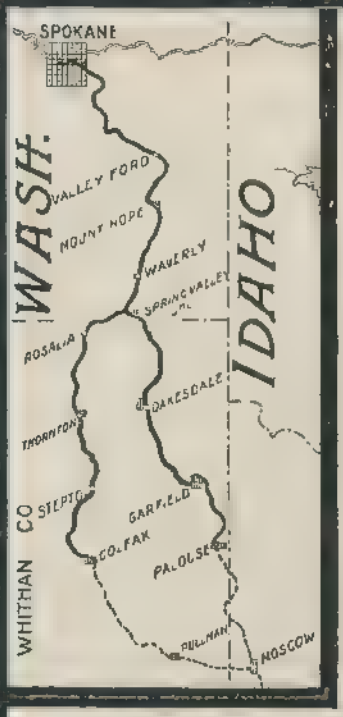
SPOKANE



New Townsites and Fruit Lands in the Spokane Country

There's money to be made in Eastern Washington.

The building of an electric road from Spokane south for over 100 miles to Colfax, Wash., and Moscow, Idaho, is creating openings in business and in investments which will seldom be found again. This road cuts through the heart of the famous Palouse—one of the richest agricultural districts in the Northwest. It is developing new towns, adding resources to towns already established, and bringing ideal farming conditions to a vast empire of rich wheat, fruit, beet and vegetable land.

As right of way agent for the electric railroad company, and selling agent for its affiliated land company, we offer town lots at farm prices in new towns which will soon become the most thriving places in Eastern Washington. We also offer choice suburban tracts and irrigated and non-irrigated fruit and vegetable tracts within a few minutes' ride of Spokane, and farms in all parts of Eastern Washington.

No better investment than these can be found anywhere. This property will increase rapidly in value. It is one of the few chances you will ever have to get in on the ground floor of large towns, and the possibilities of profit are almost unlimited.

These fruit lands are some of the richest in the State, easily capable of paying from $200 to $1000 an acre a year, and they are on an electric line within from a half hour to an hour's ride of the center of Spokane, a city of nearly 100,000 people.

All this property is sold at low prices on the easiest of installments, with either monthly, half yearly or yearly payments.

Write for free literature and detailed information; write at once before the sale of some of the choicest of these townsites open. State whether you are interested in fruit lands, in suburban tracts, town lots or farms and we will tell you where you can make the most money. We gladly give you the benefit of our expert knowledge derived from 10 years of continuous and successful real estate business in Spokane. We can make money for you or establish you on a delightful and profitable home.

SPOKANE REAL ESTATE INVESTMENTS

Spokane real estate pays from 8 to 15 per cent., and in many parts of the city values are increasing as rapidly as 25 and 50 per cent. a year. If you want bigger returns from your money than you are now getting, write us.

THAT'S ALL!

of days one can run the three miles under 11 minutes 30 seconds.

But the best is to win place in Paris, and, of course, all of them will run as hard as they can. From correspondence, I find that Cregan, the Oxford runner, Bray and Hicks have all made arrangements to come to America. Considering enough, these five men are really the favorites for the marathon. Australian might be added to this a letter of Wright, who has evidently not settled his mind, but, in general, he says that he intended to go, and, in any case, will hardly be found in Paris.

What are the chances of the five men mentioned above?

Cregan is in present captain of the Pennsylvania team. During the past four years he has proved himself a great distance runner, winning the half and mile American championships and the half and five kilometers championships, of which he won both the mile championships. He has made a mistake in entering the half. He will be asked to a mile, at 1 p.m. Cregan has proved worse than the present record held by Quin.

A friend of Pennsylvania has won an invaluable asset for himself when entering that institution. He has already improved. Last season he did no fast work. He won the 4 mile Intercollegiate championship, and on the same day proved all second in the half-mile race. During the season he won the Cross Metropolitan and American championships and did well in London that for the Cross event.

Jack Hicks, the Harvard runner, has not seen to remarkable advantage lately, but he has probably run more seconds in more fast races than any one in the track at the present time. He has been a member for the last mile, a distance of 10 seconds, for the 3 miles, and 10 seconds for the 5 miles. As you will be and who are so easily defeated as possible. Jack has plenty of confidence. In fact, when in Canada he has often been known to run to an 10 miles.

Bray of Williams is not so well known as the others, but he has done very creditable work. Last spring he showed signs of his age in the Cross championships at Philadelphia. During the summer he was more than once and Cregan up in winning the Canadian championship. In New England he is recognized as unbeatable at the half and mile. Wright of Brown runs principally in the middle.

There is, perhaps, the best feature of the five, namely, the fact that each has run the course in Paris before the public. In the last running when was young, with hundreds of runners, and that is a course which, though not all, he has won American, Canadian, Australasian, English and Scottish championships. As a consequence he knows what to expect. Another thing in favor of these men is that they have been in the Olympic championships in 1900, the only championship of England that has ever been run three times. Either the best all the Olympic championships of America have 1 to 10 runs, winning the championship seven times and the rest five times respectively.

Then, in the cross runs, America will have a strong system, and as each is sure to be in the best shape of his life, we may look to be the best team in Paris. The Australian team is to be unseen. This is now in that and here, but as England, and as I will assuredly keep close looking to England upon it. We hope that our hosts and Britain will win the day.

CALIFORNIA LADIES

Experience and Letter.

"While using Mocha and Java coffee I was many times but a serious case of nervous prostration, with heart trouble and other troubles. My husband also had some nervous trouble, and we both used coffee freely. We finally gave up coffee and began the use of Postum. Since husband and myself have both been perfectly well for three years.

"Mrs. C. E. Gibson of 2101 Adams St., and Mrs. Ida Bennett, 1041 Pleasant St., Los Angeles, both tried Postum Food Coffee, but did not like it. Others mentioning, according to directions, and therefore the use of the K. I. C. Postum is now used in their homes and they are well and happy. Mrs. Gibson says she and her family are in very good health at the present time.

"Mrs. Mc. Hickman of 617 Wentworth Ave., Chicago, had been quite ill for years with dyspepsia and constipation and I urged her to leave off coffee and take Postum Food Coffee. She now writes me that she is perfectly well.

"Mrs. Tom Moore of Riverside, Cal., and the Rev. Lily Smith of Redlands, were both ill for some years with heart trouble. I told them of my experience with coffee and induced them to try it and take to Postum Food Coffee. Mrs. Moore is now entirely well and has been for some time, while Mrs. Smith says that she had been relieved more than twenty of coffee and using Postum, but has declared it was now restored.

"I am certainly a strong advocate of Postum."—"The Wave Maker," 123 N. Fulton St., Los Angeles, California.

Wool Soap

Expensive garments, whether they be woolens or linens, should not be washed with common laundry soap. It makes them harsh and stiff.

Wool Soap is the best soap for washing fine underwear. Garments washed with Wool Soap will feel soft and comfortable, and wear twice as long as garments washed with cheap laundry soap.

Wool Soap is made of the purest soap-making materials, is lasting in use, meets every possible soap requirement, and is just as good for the toilet and bath as any high-priced toilet soap. Wool Soap is thoroughly good for every household purpose.
